Zarif Carpets is the export department of ZARIF MOSAVAR INDUSTRIES, which was established in 1984 in Isfahan, the central part of Iran.

As the first manufacturer of wall to wall carpets, it started with the annual production capacity of 5,000,000 sqm of needle felt carpets. By the time the company has developed its portfolio to tufted carpets, artificial grass and carpet tiles. Today the total production reaches to up to 50,000,000 sqm annually in the aforementioned categories. In a three year horizon, the production capacity is planned to increase to 70,000,000 sqm until 2025.

Besides the development of production capacity, ZARIF MOSAVAR INDUSTRIES had been visionary about the supply chain. As a result, today, the company owns some petrochemical facilities which are serving not only the factories belonging to company but also the carpet industry inside and outside of country, with the production of granules, master batches, yarn and latexes.

Since the day of establishment, the company has been committed to quality, durability, eco-friendliness and variety of design options.

We, hereby, would like to send our message of gratitude to our customers for choosing to spend long hours of their daily lives, in whatever commercial or residential area, they are using our products.
